Experience

Frontend Developer Intern (online)
- ***KALEIDONEX*** *| October 15, 2024 - November 15, 2024*

Full-Stack Developer Intern (Online)
- ***INTERNPE*** *| May 19,2025 – June 15,2025*

Personal Portfolio Website / *React, Framer Motion, Tailwind CSS, Axios*   Demo / Code
- Design and enhanced a fully responsive personal portfolio website with sections like Home, About, Services, Skills, Projects, and Contact.
- In the Projects section, I categorized my work into Java Projects, Frontend Projects, and Full Stack Projects, giving visitors a clear overview of my technical expertise.
- Implemented smooth animations and UI interactions using Framer Motion and Radix UI to enhance engagement.

Ecommerce Website / *HTML, CSS, JavaScript*   Demo / Code
- Built a responsive online shopping platform with complete user functionality, featuring sections like Home, Shop, Blog, About, and Contact.
- Enabled product browsing with descriptions, color options, and featured highlights.
- Implemented cart management, online ordering, and payment flow.
- Included services like Free Shipping, Promotions, and 24/7 Customer Support.
- Integrated a blog for store updates and latest news.

Job Portal / *React, Node.js, Express, MongoDB, JSON Web Token, bcrypt, Multer, cookie-parser, Cloudinary, datauri*   Demo / Code
- Built a full-stack job portal with distinct Student and Admin roles.
- Students can register, manage profiles, browse/filter job listings, upload resumes, apply for jobs, and track application status.
- Admins can register companies, create/update/delete job posts, assign jobs, and update job statuses.
- Implemented secure authentication using JWT and bcrypt with role-based access and file uploads (profile photos/company logos).
- Enabled advanced job filtering by role, location, and salary, with real-time status tracking for applications.

Achievements

- Internal Smart India Hackathon 2024
